## Cleaning Your Airbrush

Please refer to manufacturer's cleaning instructions.

## Airbrush Repair Program

Because the airbrush represents an important part of DecoPac cake designs, DecoPac has a program to help keep your airbrush in good working order.

1. Our Customer Service Representatives are trained in airbrush repair, dial 1-800-DECOPAC. They will coach cake decorators through cleaning and minor repairs. Most airbrush malfunctions are caused by improperly cleaned equipment. We believe 80% of the difficulties can be solved through this in-house service.

2. For more stubborn problems, send us the broken airbrush and we will repair and return your airbrush to you within 2-3 weeks. We also offer reconditioned DecoPac and Badger airbrushes in exchange for the same make and model. Badger models will be repaired or exchanged for a flat fee of \$25. DecoPac models will be repaired or exchanged for a flat fee of \$30. All other models will be repaired for a flat fee of \$30.

*Please note: There is no charge for calling the help line; this service is available to all DecoPac customers.*

## Badger Compressor Repair Program

If it is determined by DecoPac Customer Service that the compressor needs repair, you will be directed to the Badger Air Brush Company at 1-800-247-2787 for further assistance. Ask for the Compressor Department when placing the call to Badger and identify yourself as a DecoPac customer.

1. If it is determined that the compressor needs to be returned to Badger for repair, Badger will issue a UPS Call Tag for the return of the compressor to Badger as long as it is within the warranty period of one year from date of purchase. Please provide a copy of the invoice. If you can not provide the invoice, contact DecoPac Airbrush support and they can provide it for you.

2. If the compressor is not under warranty, you may still send it back to Badger for inspection to determine what the issues with the compressor are. Before any work would be done on the compressor, you would be notified of the cost to complete the repair. You would also be responsible for the return to Badger if the compressor were no longer under warranty.
3. Badger will require 2 business days to repair any compressor unit that is sent back. Additionally, the transit time should be taken into consideration; both to and from will vary based upon your location. The average transit time will be 2-4 days each way.

*Please note: The manufacturer's one-year warranty is limited to defective parts or workmanship only.*
